Villages without electricity

1631. DR. GYAN PRAKASH PILANIA: Will the Minister of POWER be pleased to state:

(a) Government's policy regarding electrification of villages;

(b) the number of villages without electricity/electrified as on date, State-wise; and

(c) the steps taken to provide electricity to those villages and the target set therefor, particularly in Rajasthan?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) The Government of India, under Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY) has envisaged electrification of over one lakh un-electrified villages as also intensive electrification of already electrified villages in the country for providing access of electricity to all the rural households by 2009. The salient features of which are given as under:

- The scheme aims at electrification of about one lakh villages (excluding villages to be electrified by MNRE) and providing access of electricity to 7.8 crore rural households including 2.34 crore BPL households.
- Ninety per cent capital subsidy is provided for overall cost of the projects under the scheme.
- States must make adequate arrangements for supply of electricity and there should be no discrimination in the hours of supply between rural and urban households.
- For projects to be eligible for capital subsidy under the scheme, prior commitment of the States is obtained before sanction of projects under the scheme for: –
  - — deployment of franchisees for the management of rural distribution in projects financed under the scheme, and
  - — the provision of requisite revenue subsidies to the State Utilities as required under the Electricity Act, 2003.

Rural Electrification Corporation (REC) is the nodal agency for the scheme.

(b) As per progress report on village electrification by CEA and taking into account the achievement under RGGVY during 2005-06, 2006-07 and 2007-08, 4,93,226 villages are electrified and 1,00,506 villages are un-electrified in the country as on 17.08.2007. State-wise details are given at Statement.

(c) Rural Electrification Corporation has received 32 Detailed Project Reports (DPRs) and 7 Supplementary DPRs out of which 25 projects are under implementation in Phase-I of the scheme. 25 projects cover 1705 un-electrified villages, 15,608 electrified villages and 6,99,651 BPL households at the cost of Rs.453.23 crores.

The balance DPRs are yet to be sanctioned covering 2,783 un-electrified villages. The implementation of all the projects under RGGVY could be carried out only if the scheme is approved for continuation in the Eleventh Plan.

Statement

State-wise number of villages without electricity/electrified

Sl. No.	States/UTs	Total inhabited villages as per 2001 Census	Status of village electrification as per revised definition of village electrification						
			Villages electrified as on 31-3-2006			No. of villages electrified during 2006-07 under RGGVY and other schemes	Balance villages left for electrification as on 31.3.2007	Villages electrified during 2007-08 uptill 17.08.2007	Balance villages left for electrification as on 17.8.2007
